Do you need help with your career? We can assist you with your career path or direction to take.

As a dedicated **Careers, Talent, Recruitment** and **Managed Services** consultancy working within the resources sectors, we offer individual clients comprehensive and complete understanding of career pathways suitable to their distinct needs. This starts with those seeking career coaching; providing you with incredible clarity and confidence with your career moving forward.

Our aim at the **HUB** is to personally know who you are and what career goals you are after. By adopting this approach, we don't use standard resume templates. Instead, and after much consultation with our clients, we develop tailored documents specifically for you that will represent your experience and qualifications to meet the needs of its reader – Recruiters, Hiring Managers and HR professionals alike.

To gain as much information as possible, we speak to you directly – preferably face-to-face, or via Skype or phone consults. This enables us to have a real understanding of your knowledge and successes as well as detailed information about the types of roles you are interested in applying for so we can focus on your resume/CV and cover letters correctly and efficiently.

Combined with quality designed and targeted career documentation, **THE resources HUB** allows our clients to have a more significant competitive edge when applying for their next employment opportunity.

THE resources HUB is the only **Harrison Assessments Consultancy** in the mining and resources sector, offering our career clients a clear understanding of suitable career pathways for their individual needs through employment assessments, career exploration, personality and behavioural testing.

AND as a licensed and registered **WA Employment Consultancy/Agency**, we add your completed and updated documents to our **recruitment database** for upcoming employment opportunities, as we know exactly who you are and what your ideal role career pathway is!

THErh Exclusive Career Option Services Harrison Assessment Career Navigation

Harrison Assessments are internationally recognised specialists in all aspects of employee assessments through their excellent behavioural testing tools. Their services offer a full personality and psychological testing, and career exploration.

Harrison's Career Navigator uses the most advanced technology for helping students, graduates, unemployed and working adults find and succeed in a career they will love and enjoy!

Do you need some Career Clarity? Do you want to identify your greatest strengths?

The Harrison Assessment Test is perfect for those who are at the stage of **choosing which career to pursue** and those who would like to **transition their careers**.

Harrison's Career Navigator sorts more than 600 careers profiles in the system for you to find a career that aligns with your interests, personality and the activities you enjoy doing. Our career test is based on global research, that clearly shows that when you find this alignment, you are more than three times as likely to succeed in your career!

Career Navigation Systems assist you by:

Career Exploration – Finding careers and positions that you are best suited to

Career Search – Search in the system for all the unique jobs that are suitable for you: your likes and dislikes

Career Eligibility – You can find out details about each career and the education, qualifications and skills needed for that chosen pathway

Career Prospects – Discover the most enjoyable aspects of a job or position of your choice

Career Selection – Find out non-enjoyable aspects of any profession, hence saving a lot of time through trial and error

Strength Analysis– Identify your greatest strengths and use them to **YOUR** advantage

Interview Ready– Utilise your greatest strengths report to position yourself successfully in front of interviewers and create the right type of positive impact from the very first instance

Career Guidance – Get the guidance you need through the detailed career reports specific to you and your circumstances, and how best you can develop your career
